Bloomfield Hills Schools
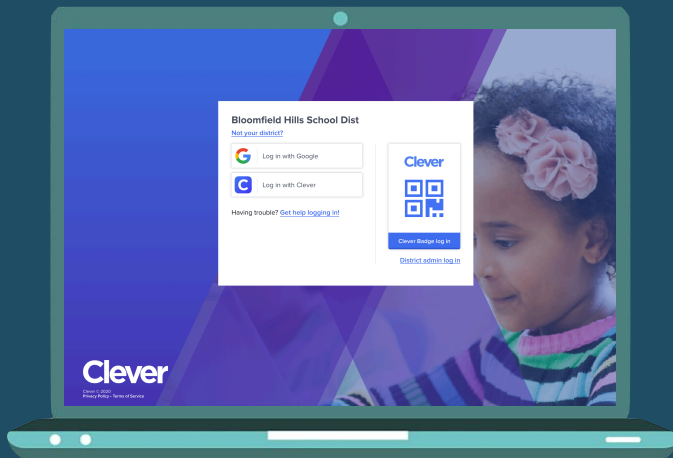

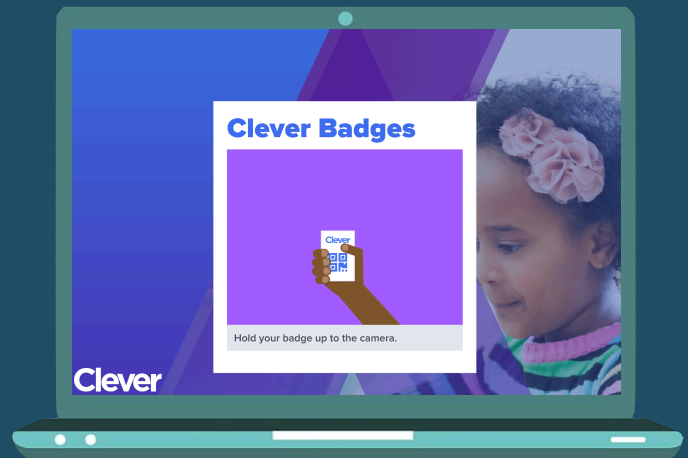

Using Clever on a Chromebook or Computer to Access Online Resources

Clever is a website that allows you to use your student's @bloomfield.org email address to access a wide variety of online resources. One Clever login unlocks dozens of online tools and displays customized teacher pages.

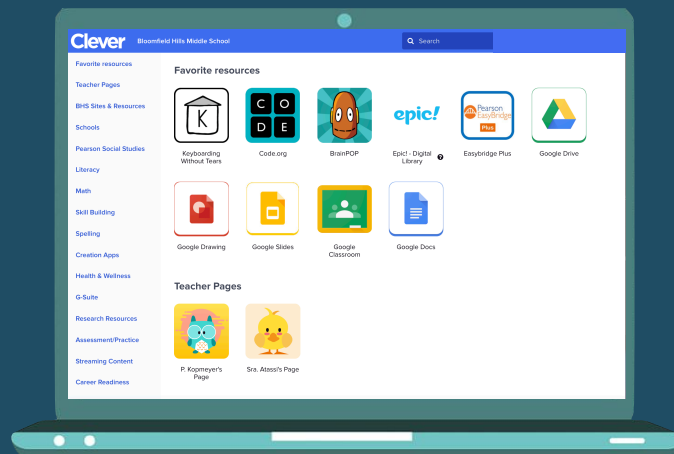

Open your browser and visit clever.com/in/bloomfieldhills. Click Log in with Google and enter your student's normal @bloomfield.org email and password.

If your student has a QR code Clever Badge, click Clever Badge Login, allow the camera access, and hold the badge up to the camera.

Click on any resource in your student's Clever Portal to be taken to the site. Click on a teacher page to see specific links and websites recommended by your student's teachers.
